Google Workspace (formerly G Suite) is Google's cloud-based productivity and collaboration suite, now infused with AI to supercharge your workflow. Its core applications include **Gmail, Google Docs, Google Drive, and Google Meet**, offering real-time collaboration, file sharing, and enterprise-grade security.

Whether you're a freelancer, a startup, or a large enterprise, Google Workspace gives you **professional email, cloud storage, video conferencing, and document collaboration** in one integrated package. As of 2026, **Gemini AI** is deeply woven into every application, bringing artificial intelligence to your everyday work.

What Is Google Workspace?

Google Workspace is a comprehensive business solution for Google's productivity apps. With a single subscription and your custom domain, you get access to **Gmail, Google Drive, Google Meet, Google Docs, Google Sheets, Google Slides, Google Chat**, and more.

Originally launched as "Google Apps" in 2006, rebranded to "G Suite" in 2016, and renamed "Google Workspace" in October 2020. Today, **Gemini AI** is built into most paid plans, providing AI-powered content drafting, analysis, summarization, and

more across the entire suite.

Google Workspace Plans Explained

Google Workspace currently offers **four main tiers** for businesses: Business Starter, Business Standard, Business Plus, and Enterprise. Each tier includes the same core applications but differs in **storage, meeting capacity, security controls, and administrative tools**. All Business tiers support up to **300 users**, while Enterprise has no user limit.

Business Starter

\$7 /user/mo*

- 30 GB cloud storage
- Google Meet for up to 100
- Custom business email
- Basic security & management

For startups & solopreneurs

Business Standard

\$14 /user/mo*

- 2 TB cloud storage
- Google Meet for up to 150
- Meeting recording
- AI-powered noise cancellation

★ Most popular

Business Plus

\$22 /user/mo*

- 5 TB cloud storage
- Google Meet for up to 500
- Vault (eDiscovery)
- Advanced security & compliance

For regulated industries

Enterprise

Contact sales

- Unlimited storage
- Google Meet for up to 1,000
- Data Loss Prevention (DLP)
- Dedicated customer support

For large organizations

*Annual billing price. Monthly billing is slightly higher. Enterprise is custom-priced.

Key Features Deep Dive

Professional Business Email (Gmail)

Create a professional business email with your **custom domain**, enhancing your brand image. Built-in spam filtering, powerful search, and a familiar interface reduce onboarding time.

Cloud Storage & File Sharing (Google Drive)

Google Drive is the core storage layer of Google Workspace, helping teams **store, organize, and share files** across the organization. Real-time synchronization and easy link-based sharing make collaboration fast and accessible from any device. Storage ranges from **30 GB to unlimited**.

Real-Time Document Collaboration (Docs, Sheets, Slides)

Support for **real-time multi-user editing** of documents, spreadsheets, and presentations. All changes are automatically saved — no manual saving required. As of 2026, Advanced Word compatibility (beta) is also available.

Video Conferencing (Google Meet)

High-definition video meetings with support for **up to 1,000 participants** (Enterprise). Features include: meeting recording, noise cancellation, Studio sound/look/light, translated captions, AI note-taking, and more.

Team Communication (Google Chat)

Instant messaging for teams with **group and direct messaging**. Deeply integrated

with Gmail, Drive, and other Workspace apps.

Security & Compliance

Google Workspace uses **the latest encryption standards**, protecting data both in transit and at rest. Supports **two-factor authentication, advanced endpoint management, Vault (eDiscovery), Data Loss Prevention (DLP)**, and more. Compliant with **FINRA, SOC 1/2/3, ISO 42001, FedRAMP High, HIPAA**, and many other international standards.

How to Get Started with Google Workspace

1. **Choose your plan** — Select the right tier for your team size and needs. [Click here to begin.](#)
2. **Set up your domain** — Use an existing domain or purchase a new one to create professional email addresses.
3. **Add users** — Create accounts for team members and assign appropriate permissions.
4. **Migrate data** — Use Google's **migration tools** to move emails, calendars, and files from your old platform.
5. **Start collaborating** — Use Gmail, Drive, Docs, Meet, and other tools to work together seamlessly.

Tips for Choosing the Right Plan

- **Business Starter** — Best for **freelancers, solopreneurs, and small teams with fewer than ten employees**. Primarily need professional email and light document collaboration.
- **Business Standard** — The **most popular** plan for most growing businesses. Choose this if you need **meeting recording and 2 TB of storage**.

- **Business Plus** — Ideal for **regulated industries** such as healthcare, finance, and legal, requiring Vault (eDiscovery) and advanced security features.
- **Enterprise** — Designed for **large companies with dedicated IT teams and complex compliance or security needs**. Offers unlimited storage, 1,000-person meetings, and dedicated support.

Frequently Asked Questions

What's the difference between Google Workspace and free Google tools?

The free version provides basic Gmail, Drive, Docs, etc., but **no custom domain, no enterprise-grade security controls, and limited storage**. Google Workspace offers **professional business email, much larger storage, advanced security, 24/7 support**, and more.

Can I mix different plans in the same organization?

You **cannot mix different Business plans** within the same organization. All users must be on the same plan. Enterprise can be custom-negotiated separately.

Is there a free trial for Google Workspace?

Yes, Google Workspace offers a **14-day free trial**. You can experience all features at no cost during the trial period.

Where is my data stored, and is it secure?

Data is stored in Google's global data centers. All data is **encrypted by default**. Google Workspace meets **ISO 27001, SOC 2, HIPAA, FedRAMP**, and many other security and compliance standards.

Can I migrate from Microsoft 365 to Google Workspace?

Yes. Google provides **dedicated migration tools** for moving emails, calendars, and files from Microsoft Exchange, IMAP, and other platforms.

How many languages does Google Workspace support?

Google Workspace supports **over 50 languages**, including English, French, Spanish, German, Japanese, and many more.

Ready to boost your team's productivity?

Join millions of businesses worldwide that use Google Workspace to collaborate, innovate, and grow.
